

CORONAVIRUS (COVID-19) COMMUNICATIONS

March 27, 2020

Austal USA Teammates,

Thank you all so very much for continuing to execute our mission through this very challenging time, and following the important CDC guidelines for personal hygiene and social distancing. I'd like to also thank our Health & Safety team for their incredible effort providing medical support to all of us, as well as our Site Services Team for their amazing effort in keeping our facility clean. These are trying times and we must continue to look out for one another each and every day as we work through this global pandemic.

As we go into the weekend, it is SO important that we all continue to follow CDC guidelines to protect ourselves and others: wash hands often; use hand sanitizer if soap and water are not available; cough/sneeze in your arm, not your hand; avoid touching your face; practice social distancing staying at least six feet away from others. Again, it's best to act like everyone else has the virus, so protect yourself by staying disciplined to these guidelines.

Also, as a reminder, if you are sick PLEASE DO NOT come to work. Notify us and contact your physician immediately. This will not only help you get better sooner, but it will also protect your Austal teammates.

If you start feeling sick at work, contact your supervisor and immediately go to an Austal First Aid Station or call our Austal medical team at **(251) 445-1945**.

We still have a long way to go to get through this pandemic so we ALL must do everything we can to protect ourselves, our families and our co-workers.

Again, thank you so much for all you're doing. We will get through this, but it will take all of us!

Craig

A handwritten signature in blue ink, appearing to be the name "Craig".
