

CORONAVIRUS (COVID-19) COMMUNICATIONS

May 29, 2020

Austal teammates,

I hope this message finds you well. I wanted to take a brief moment to thank everyone for continuing to work through the challenges of COVID-19.

I'm so proud of how the entire team continues to respond to this crisis, looking after each other, and our community, as we continue to serve a vital role in our nation's defense.

As our state slowly gets back to "normal" and our Enhanced Leave Policy comes to an end (May 31), know that COVID-19 remains a significant concern we will continue to take seriously as the health and safety of everyone here at Austal USA is our top priority.

We will continue to implement CDC guidelines in the workplace including enhanced cleaning, PPE and safety protocols, along with case management procedures developed to reduce the risk of spread in the workplace.

That said, the most powerful tool we have in fighting COVID-19 is each and every person here at Austal taking personal responsibility in protecting the health of the entire team by continuing to follow CDC guidelines here and at home.

If we all continue social distancing or when we can't, using face coverings, frequently cleaning/sanitizing our hands each and every day, and not going to work when ill, we help protect the health of each other, our families and our community.

We've done a great job so far, let's keep it up going forward.

Thanks for all your hard work and dedication.

Have a safe weekend and stay healthy.
