

CORONAVIRUS (COVID-19) COMMUNICATIONS

August 5, 2021

Austal USA Teammates:

On July 21, 2021 we implemented a mandatory mask policy for all Austal USA employees. We stated at that time the mandate would run through August 8th, at which time we would consider extending it.

Due to the explosion of COVID-19 cases now being experienced in Mobile County, Baldwin County, and here at Austal USA, we are extending the mandatory mask mandate until further notice. It is our hope that we will see a dramatic increase in vaccinated personnel, so we can determine when we can remove the mask mandate.

Again, we have USA Medical coming on site today and tomorrow. If you did not sign up originally and would now like to get the Pfizer vaccine free of charge while you are at work, please let your Supervisor know asap so they can get with our Director of Safety, Sam Cordts and set you up an appointment time.

We are all one team and we want everyone to be as safe as possible.

Thank you for what you do and thanks for being Austal Blue!

Michael Bell
